

Restaurant Menu

Use Character and Paragraph Styles to create a Restaurant Menu for the restaurant of your choice. This assignment is inspired by your work with character and paragraph styles in the Jake’s Diner and Toy Breeds assignments. To complete this assignment, follow these instructions:

1. Select a restaurant that you would like to use for this assignment. Find their menu and select eight of their menu items to include in your menu. Each item you choose must include the following:
 - a. Title (the name of the item)
 - b. Description (a brief description of the food/drink item – if this is not provided, make up your own)
 - c. Price (if not given online, estimate a price)
2. Use a new InDesign document (Letter size, Portrait orientation) to create your menu.
3. Enter the restaurant name, logo, and the eight menu items.
4. Format the menu items using Character and Paragraph Styles that you create:
 - a. Character Styles – use three different styles (title, description, and price)
 - b. Paragraph Styles – use at least one paragraph style
5. Work on the overall design of your menu – it should look restaurant quality when you are done. Make sure the colors match the colors from the restaurant logo and you make suitable typeface choices.
6. Print your menu in color using printer dchs-116-clrprn.

The following rubric will be used to grade your assignment:

Item	Description	Points Possible
Title	<ul style="list-style-type: none">• restaurant name and/or logo in title	2
Menu Items	<ul style="list-style-type: none">• eight menu items• title, description, and price for each item	4
